

Dear Valued Customer:

We are pleased to bring you our new 2009-2010 catalog and price list.

We are very excited about our 2009-2010 crop. Quality and service continue to be our number one goals in producing a #1 crop.

Adding new and improved plants to our list is also a big challenge to me. I love to find new products and be able to share them with our customers.

Look through our catalog, compare our prices, and sample our quality with an order. We're sure you'll be pleased with the quality and service.

For information regarding the contents of this list please contact Iain Hiscock, Tim Fulmer or Betty Kelly. We will be glad to answer any questions you may have.

Following is our discount schedule you will also find this in our terms located in the back of the catalog.

DOLLAR VOLUME DISCOUNT DOES NOT INCLUDE GALLON CONTAINERS

3,500 -	5,000	2%
5,000 -	8,500	3%
8,500 -	15,000	5%
15,000 -	20,000	7%
20,000 -	30,000	10%
30,000 -	50,000	15%

The applicable discount will be deducted from the invoice total. All invoices are due in 30 days. **OUR MINIMUM ORDER IS \$500.00.**

We appreciate your continued patronage.

Sincerely,
Iain R. Hiscock

CONNOISSEUR'S CORNER

We are always on the look out for new, unusual, and unique plants. We strive to produce no fewer than 500 of a species, some plants remain coveted items in smaller numbers. Below is a list of these plants, quantities are limited.

GINKGO BILOBA 'GNOME':

A very new cultivar, compact and dwarf bottom grafted for shrub form, top grafted for pom pom affect at 3'-4'. (2 gal. 12.50 / 7 gal. 28.00)

GINKGO 'TROLL':

A European import similar to grow but larger leaf. (3 gal. – 14.50 / 5 gal. – 19.50)

GINKGO 'WITCHES BROOM':

Dwarf compact form, light green foliage, grow only 2"-4" per year. (3 gal. – 14.50 / 7 gal. – 28.00)

GINKGO STUPKA'S BROOM:

Slow grower, wide growth habit with tubular leaf. (2 Gal. 12.50 / 3 gal. – 14.50)

GINKGO 'BLAGON':

Fastigate form, conical form similar to *Carpinus fastigiata*. (2 ½ gal. – 13.50)

CERCIS CHINENSIS 'ALBA':

A beautiful variety, heavy and prolific bloomer. Height 6'-8' max. (2 gal. – 13.00)

CERCIS CHINENSIS 'DON EGOLF':

A USDA National Arboretum selection. Heavy red to purple bloomer. Shrub form. (2 gal. – 14.00 / 3 gal. – 18.00)

CERCIS CANADENSIS ‘LITTLE WOODY’:

Very compact, dark gnarled and almost rubbery green foliage.
Parent plant is 8’wide 10’ tall. (3 gal. – 10.50 / 5 gal. – 19.50)

CERCIS CANADENSIS ‘SILVER CLOUD’:

Variegated redbud, white and green foliage, prefers afternoon shade,
but must have sun for good variegation. (10 gal. – 45.00)

CARPINUS BETULUS ‘MONUMENT’:

A top grafted dwarf pyramidal in habit, slow grower. (3 gal. – 14.00)

CARPINUS BETULUS ‘PURPUREA’:

Beautiful dark green to purple foliage. New growing tips reddish-
purple, handsome uniform grower. Very hardy, disease and pest
resistance. (2 gal. – 11.75)

ZELKOVA SERRATA ‘GOBLIN’:

Slow growing dwarf, top grafted, rare and unique. (2 gal. – 14.00)

DOGWOOD

BAREROOT LINERS

FOR POTTING ON OR

LINING OUT

Our experience in growing bareroot Dogwoods over the years enables us to offer you the very best quality in bareroot liners at very competitive prices.

Most of our liners are staked or gro-straighted for straightness of stem. Our grading teams are taught only to send the very best. All dogwoods are dipped in fungicides before shipment.

We like to dig to order and ship out only fresh run material. For more information, please call our office. **Please order in multiples of ten.**

We have developed a 2 year transplanted program for container growers. This will enable us to offer a much heavier, near finished product than the 1 year product.

THE HYBRID STELLAR® SERIES

Rutgers' Introduction

We are pleased to offer four dogwood hybrids developed by Dr. Elwin Orton and patented by Rutgers University. They are highly resistant to the common dogwood borer and have shown high field resistance to *Discula*, anthracnose. The floral period of each hybrid last about the same length of time as the *Cornus florida* (14-15 days) and all exhibit a period of floral display that is intermediate branched close to the ground than plants of *Cornus florida* and *Cornus kousa*.

Cornus x 'Rutgan' P.P.#7207

STELLAR PINK®

Very vigorous grower. The flower heads have rounded, overlapping bracts that are soft pink in color. The are sessile, nearly rounded to obviate with short, acute tip and tapered base. **

Cornus x 'Rutdan' P.P.#7204

CELESTIAL™

Blooms four to six days after Ruth Ellen. At first the bracts form a deep cut and have a greenish tinge, but they flatten out and become fully white in a few days. The bracts are rounded, well textured, and slightly overlap. Mature height approximately 20-23'. **

Cornus x 'Rutcan' P.P.#7210

CONSTELLATION®

Short, acute tip and tapered base.

Cornus x 'Rutban' P.P. #7205

AURORA®

Vigorous grower. Bracts are white and have a heavily textured, velvety appearance which become creamy white with age. Mature height approximately 20 – 30'.

TWO NEW SELECTIONS FROM RUTGERS UNIVERSITY
MEMBER OF THE JERSEY STAR™ SERIES

Cornus x ‘KN4-43’

STARLIGHT®
DOGWOOD

P.P. #16,283. One of the first two cultivars of Rutgers University Jersey Star series. Vigorous with floral display of large white bracts and dark, glossy green foliage. Disease and insect resistant.

Cornus x ‘KN30-8’

VENUS™
DOGWOOD

P.P. #16,309. This variety has shown no signs of mildew or antracnose, probably the most vigorous selection made. Large dark green leaves with above normal sized white blooms.

Please note: “Asexual reproduction of these plants and reproduction or use of these trademarks without license from Rutgers University is strictly prohibited.”

'Samzam'

SAMARITAN™ DOGWOOD

A LAKE COUNTY NURSERY 'ZAM' INTRODUCTION....

A new variegated Chinese Dogwood; Samaritan™ is an offspring of Cornus kousa 'Milky Way'. This new selection is the strongest and most vigorous growing variegated dogwood. Hardiness is one of its strongest characteristics. Samaritan™ has handsome variegated creamy-white and green foliage that remains attractive all summer and in the fall it takes on radiant pink and rich burgundy hues. One of the best variegated forms. Very tolerant to heat.

Cotinus coggygia

GOLDEN SPIRIT

P.P. #13,082. Zone 4. Exceptional for its spring foliage that ranges from lime green to a brilliant gold color, and followed up by excellent fall colors in shades of coral, orange and red. Grows best in well-drained soils in full or part sun.

3	GAL.	8.00
---	------	------

Cryptomeria japonica
'Yoshino'

JAPANESE CRYPTOMERIA

Zone 5-6 & South to 8-9, height 30'-40'. Bright blue-green summer foliage that becomes slightly bronze-green in cold weather.

2	GAL.	6.00
3	GAL.	9.75

Cryptomeria japonica

BLACK DRAGON

A delight in miniature form, only about 5' tall and 7' wide after 10 years' growth. Deep and dense, the foliage on this small tree is highly aromatic. Pyramidal shape, dark green (almost black) needles.

3	GAL.	10.75
---	------	-------

Cryptomeria japonica

GYOKURYU

A dense, broadly pyramidal grower with short, exceptionally stiff needles that tend to be much darker green than most cryptomeria.

2	GAL.	8.00
---	------	------

Zone 4-8. No disease or pest problems, beautiful spring time floral display, gray-blue summer foliage, and rich red autumn color. Upright grower 5'-6' height, 5'-6' wide. Tolerant of both full sun and partial shade.

3	GAL.	14.50
5	GAL.	19.50
7	GAL.	28.00

WITCHHAZEL PROMOTION

Hamamelis x intermedia:

‘Arnold’s Promise’ – Clear yellow flowers, each petal almost an inch long. Very fragrant, large shrub flowers a little later than other cultivars.

‘Diane’ – One of the best red flowering forms, faintly fragrant, rich yellow-orange-red fall color.

‘Sunburst’ – Has lemon-yellow scentless flowers that are produced in abundance during January and February.

‘Jelena’ – Excellent in flower, glows like copper, orange in middle and yellow at the tip. Rich orange-red fall color.

‘Magic fire’, ‘Luna’ and ‘Moonlight’ are other varieties.

Hamamelis vernalis:

‘Amethyst’ – A new cultivar with very striking purple flowers.

‘Pallida’ – Prefers acid to neutral soils, grow in full sun or light shade. Height 12’-15’ requires little pruning. Spectacular autumn color ranging through yellow to orange and reds.

‘Sandra’ – Orange- yellow flowers.

1	GAL.	8.25
2	GAL.	10.75 Hvy.
3	GAL.	11.75 Hvy.

6' BR 13.75

TERMS AND CONDITIONS

PRICES

The prices named in this list cancel all previous lists. They are based on current market conditions and are subject to change without notice. Prices are F.O.B. Decherd, Tennessee. ***Specially selected and tagged*** plants will be individually priced as mutually agreed. This usually amounts to 20% additional. ***A 25% deposit is required to hold your specially selected and tagged trees.*** To dig out of season orders (May-September), add 25% extra to cover special handling such as wilt proofing or watering.

TERMS

To those with established credit or with satisfactory reference, we are glad to offer our volume discount also found on page 1 of this list. ***Past due accounts over 30 days are subject to a service charge of 1 1/2% per month (18% per year), plus costs of collection, if any. Our Minimum Order is \$500.00.*** Ever increasing costs make this necessary.

DOLLAR VOLUME DISCOUNT DOES NOT INCLUDE GALLON CONTAINERS

3,500 -	5,000	2%
5,000 -	8,500	3%
8,500 -	15,000	5%
15,000 -	20,000	7%
20,000 -	30,000	9%
30,000 -	50,000	14%

CANCELLATION

ALL CANCELLATIONS OR CHANGES MUST BE SUBMITTED IN WRITING BEFORE JANUARY 31, 2010..

DELIVERY

We strongly recommend our customers to send their own trucks, or hire local trucks to pick up their orders. Be sure to ***supply a covering to protect plants*** so they will not damage in transit. If unable to pick up your order, we will make our best effort, as your representative, to arrange for delivery at reasonable costs. ***ALL TRANSPORTATION CHARGES TO BE PAID UPON DELIVERY.*** If necessary for us to supply covering material, it will be charged at cost.

CLAIMS

Claims of any nature must be made in writing ***within 10 days of receipt of material.*** Any material short, broken, or damaged in transit must be noted on receiving ticket. It must be signed and returned to us.

GRADING

All plants will be *graded by the American Standard for Nursery Stock published by the American Nursery and Landscape Association*. Orders are individually selected and dug. Minimum sizes are listed in every instance as prescribed by ANLA standards.

GUARANTEE AND LIMITATIONS ON LIABILITY

Plants travel at purchaser's risk and expense. All sales are made with the understanding that we shall not be liable for shortage in event of crop loss or damage from causes over which we have no control. We promise to ship true to name healthy stock bearing a state nursery certificate. We cannot guarantee plants to grow because we have no control over the plants after they leave us. If any plants reach you that are not in good viable condition we expect to be notified within the 10-day claim period. All nursery stock is sold subject to the standard non-warranty clause. "We give no warranty, expressed or implied, as to the description, productiveness, or any other matter, of any nursery stock we sell. We shall in no case be liable for any sum greater than the amount originally received for any stock."
